

Internship – Software Engineer / Data Engineer

Strategy Consulting, Sourcing & Procurement at Sourcing Champions

Are you our next Sourcing Champion?

Are you at ease troubleshooting problems using statistics and visualization techniques to support data-driven decisions and develop software systems? Do you like building structures to support data collection and processing?

Then Sourcing Champions is waiting for you!

We are looking for an ambitious entrepreneurial student to join our Sourcing & Procurement strategy consultancy for a period of **+/- 6 months starting in February 2024, (starting date can be discussed)**. The role is based at our office in **Amsterdam**.

Join an exciting scale-up company, ready for the next phase of growth. We are truly a procurement strategy enthusiastic team. Our vision and growth are built on entrepreneurship and people. We want to transform Sourcing & Procurement into a real competitive advantage - let's do it together! Join us!

➔ What we offer:

- A very broad and challenging role, ranging from maintenance and issue tracking to designing end-to-end new solutions.
- Transform global sourcing and procurement to be a real competitive advantage for midsize & large companies and public organizations.
- **Global scope** with interesting projects.
- Working with a fun international team in a scale-up environment.
- Lots of freedom to act, to enrich the company with new ideas, and to support growth.
- Great location at the Weesperzijde in **Amsterdam**

You will gain a lot of experience in technical and communication skills. The compensation package is € 750, - gross per month. Are you an entrepreneurial student that is not afraid to take on any operational task? Then contact us today!

✓ **What we expect:**

*Only apply if you are legally allowed to work in **The Netherlands** (We are not able to apply for work permit/visas)*

*Only applications including **CV/Resume** will be considered*

*Deadline to apply: **December 13th, 2023***

- Bachelor's degree in computer science or similar.
- Master's degree in data science, data engineering, business intelligence or similar.
- Strong knowledge of Python.
- Knowledge of JavaScript/React.
- Java and other languages are a plus.
- Ability to write, update and maintain codes to fetch and automate processes wherever possible.
- Knowledge of SQL.
- Experience with APIs.
- Experience with visualization tools such as Tableau or Power BI is a plus.
- Strong organization, time management and attention to detail.
- Eager to learn and go the extra mile.
- Must have fluency (written and spoken) in English (Fluency in other European Languages: German, French, Dutch is a plus!)
- Able to be present in our Amsterdam office.

You will be immersed in different projects that support Sourcing Champions activities. You will assist our teams of consultants in the digitalization of our key processes and services. Your role will allow you to implement tools that solve our consultants' and experts' most critical problems. You will be expected to have a precise understanding of user requirements, work on complex data and translate your results to leverage our different projects.

Are you an entrepreneurial student that is not afraid to take on any operational task? Then contact us today!

Feel free to reach out with any questions you may have about this position, we are happy to guide you.

About Sourcing Champions:

Sourcing Champions is a boutique “next level” procurement consulting firm based out of Amsterdam and Munich. Our mission is to transform Sourcing & Procurement into a real competitive advantage for any organization. With procurement often being around 70% of the costs of an organization, it is significant to do it right and get the maximum value out of the supply base.

We are an international multilingual team with a deep-rooted procurement DNA and experience in the end-to-end view of Sourcing & Procurement from sourcing strategy to contract management. *“We bring passion to procurement.”*

We apply strong project management support to ensure an effective transformation, which is deeply customer focused and hands-on. *“We boost”*

We provide the very best digital technology fully integrated into all our programs, to get the maximum value out of your digitalization roadmap. *“We transform”*

We are value and result driven with strong programs like Category Strategy, Sourcing Innovation, Sustainability and Cost reduction. *“We make it happen.”*

We form long-lasting relationships with our clients to continuously unravel opportunities for innovative growth in both their procurement strategy and delivery. What makes us stand out is our practice of personally invest in your successful project outcome. *“We go beyond.”*

We want to transform Sourcing & Procurement into a real competitive advantage - let's do it together! Join us!
